

Forest and Wetland Outdoor Educator

Do you love science, the environment, and encouraging students to experience, discover, and connect to the natural world? Can you seize a teachable moment and turn it into an *aha-moment* for a teacher or student? If so, join us in the outdoor classroom!

Inside Education helps students and teachers understand the science, technology, and issues related to our environment and natural resources. Our award-winning education programs consider multiple perspectives and encourage critical thinking and responsible stewardship.

Opportunity

We're looking for several enthusiastic and resilient **Outdoor Educators** to join our team in **Edmonton, Calgary, Fort McMurray, and Grande Prairie** for the spring field season! As an Outdoor Educator, you will present forest and/or wetlands education programs directly to students at various outdoor field sites across Alberta throughout May and June. This is an excellent opportunity to build your facilitation and presentation skills while working with a team of passionate, dedicated educators!

Qualifications

- Post-secondary studies in education, science, environmental, or related fields.
- Experience teaching or leading outdoor groups, working with students, and/or delivering education programs.
- Candidates must be at least 21 years of age as of the position start date, have a valid Driver's License, and have a clear abstract (vehicle not required).
- This position may be partially funded through employment grants; therefore, candidates must be between 21 and 30 years of age by the position start date.
- Current Standard First Aid/CPR-C first aid certificate by the position start date. Additional safety training is a desired asset.
- Remote First Aid or Wilderness First Aid is required for the positions based in Calgary.

You will be successful in this role if:

- You are a flexible, resilient, and good-natured travel companion. Due to our work at multiple field sites across the province, frequent travel, including overnights and evening/weekend overtime, is required (time off in lieu provided).
- You enjoy interacting with students of all ages.
- You have a well-rounded understanding of the science and issues related to Alberta's natural resources and environment.
- You're a natural at storytelling and creativity and can identify and capitalize on teachable moments.

- You are willing to learn new information.

Working Conditions:

- Frequent movement of storage bins weighing up to 40 pounds from storage space to vehicle.
- Daily movement through varied terrain at outdoor field sites for 80% of the workday.
- Frequent travel in company-owned or rental vehicles involving overnight stays at hotels for several nights in a row.
- Daily work outdoors in varying weather conditions, with potential exposure to seasonal allergens.

Wages and Term

This is a 9-week, full-time term from **April 27 to June 26, 2026**.

Wages are **\$26.00/hour** based on a 36.25-hour work week, plus 6% vacation pay.

To Apply

We look forward to getting to know you better! Apply online with your letter of introduction and resumé (just one PDF file, please) by **February 22, 2026**, to:

forms.gle/KuQnzdvXdtrXJpGJ8

We appreciate all interest in these positions; however, only those selected for an interview will be contacted.
