

Forest/Wetland Outdoor Educator (May - June)

Do you love science, the environment, and encouraging students to experience, discover and make connections to the natural world? Can you seize a teachable moment and turn it into an aha-moment? Come work for us in the outdoor classroom! Inside Education helps students and teachers understand the science, technology and issues related to our environment and natural resources. Our award-winning education programs consider multiple perspectives, encourage critical thinking and responsible stewardship.

Opportunity

We're looking for several enthusiastic, adaptable **Outdoor Educators** to join our team in **Edmonton (3 positions) and Calgary (2 positions)** for the spring field season! You will be involved in the direct delivery of forest and/or wetlands education programs to students at various outdoor field sites across Alberta. This is a great opportunity to build your facilitation and presentation skills while working alongside a team of passionate and dedicated educators!

Qualifications

- Post-secondary studies in education, science, environmental or related fields.
- Some experience teaching or leading outdoor groups, working with students, and/or delivering education programs.
- For the purpose of our vehicle insurance, candidates must be at least 21 years of age as of the position start date and have a clear abstract (vehicle not required).
- This position will be partially funded through employment grants; therefore, candidates must be between 21-30 years of age by the position start date.
- You must have at minimum a current Standard First Aid/CPR-C first aid certificate by the position start date. Additional safety training is a desired asset.
- Remote First Aid or Wilderness First Aid is required for the positions in Calgary.

You will be successful in this role if:

- You are a flexible, resilient and good-natured travel companion. Due to the nature of our work at different field sites around the province, **frequent travel** - including overnights and evening/weekend overtime is required (time-off-in-lieu provided).
- You are able to work outdoors in all weather conditions, interact with students of all ages, and take on a variety of education assignments.
- You have a well-rounded understanding of the science and issues related to Alberta's natural resources and environment.
- You're a natural at storytelling, creativity, and can identify and capitalize on teachable moments.
