We **SUPPORT TEACHERS** and **INSPIRE STUDENTS** as we work toward our vision of engaged stewards who think critically about the relationship between natural resources and our environment, society, and economy.

"I am so grateful for the opportunity to learn from Inside Education, their knowledgeable partners, and from the other educators who joined the trip. I didn't want to leave any of the stops, as we always had hours worth of more questions. There is so much to be learned and Inside Ed is such a valuable connector for educators."

- Louise, Teacher -

**WE BELIEVE IN EXPERIENTIAL LEARNING TO ENRICH THE CURRICULUM.**

Our team of educators work directly with teachers and students to create firsthand experiences and hands-on learning opportunities that leave a lasting impact.

**WE FOCUS ON KEY TOPICS AND ISSUES WITH AN EYE TO THE FUTURE.**

We give students and teachers the knowledge, skills, and tools to be innovative leaders in their schools and communities, taking action on topics related to the environment and natural resource development.

**WE REMOVE BARRIERS TO MAKE OUR PROGRAMS ACCESSIBLE TO ALL SCHOOLS.**

Our programs are offered at **no-cost** to schools and our team of educators travel across the province to ensure that schools in urban, rural and Indigenous communities have equal opportunity to access our programs and resources.

**WE BRING TOGETHER EXPERTS THAT REPRESENT MULTIPLE PERSPECTIVES.**

Working collaboratively we encourage participants to be well-informed critical thinkers and stewards of our environment and natural resources.
